

CONFIGURAÇÃO DA REDE WIRELESS EDUROAM EM DISPOSITIVOS COM ANDROID

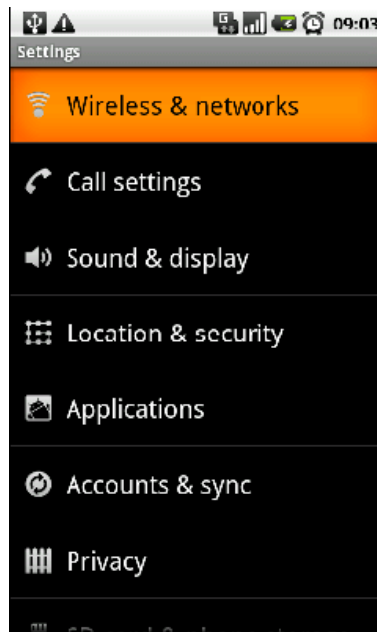

1. No menu Inicial seleccionar a lista de Aplicações

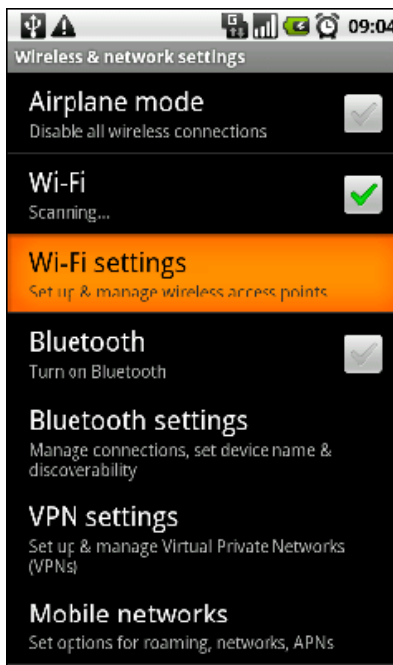

2. Clicar em Settings

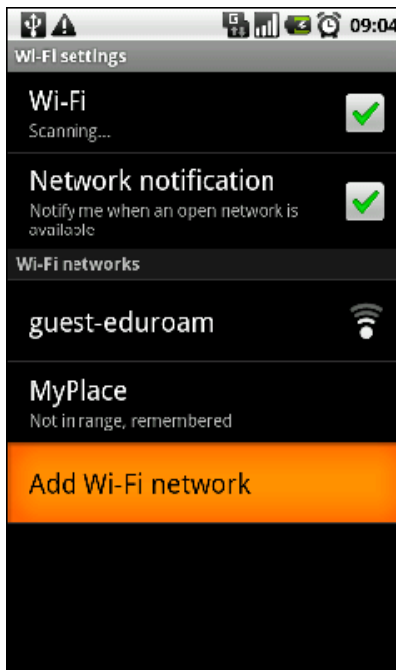

3. Seleccionar a opção Wireless & networks

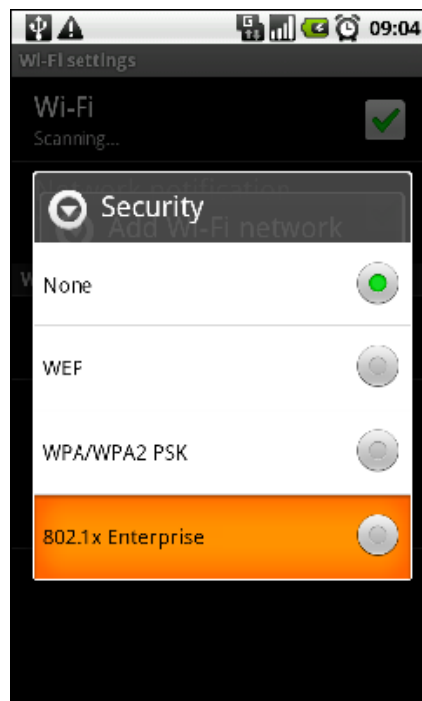

4. Seleccionar Wi-fi settings

5. Seleccionar Add Wi-fi network

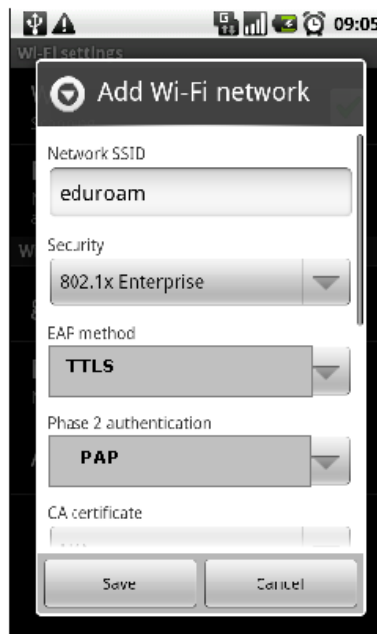

6. Na entrada Network SSID escrever eduroam. Na opção Security, seleccionar 802.1x Enterprise

Preencher os campos da seguinte forma:

. EAP method: TTLS

. Phase 2 authentication: PAP

. Identify: login@fpce.up.pt

. Anonymous identify: login@fpce.up.pt

. Wireless password: password wireless atribuída pelo utilizador na sua página pessoal do SIGARRA

No final clicar em Save. O dispositivo Android irá agora ligar-se à rede Eduroam.
